Marvin Signature® collection

REDEFINING THE STANDARD

The Ultimate product line, part of the Marvin Signature collection, unites beautiful design with exceptional craftsmanship. Add character to almost any space with our most extensive selection of shapes, styles, sizes, and options—including wood interiors protected by tough wood or aluminum exteriors. With nearly limitless opportunities for customization, Ultimate can match your vision—and give it room to grow.

About Us

At Marvin, we're driven to imagine and create better ways of living, helping people feel happier and healthier inside their homes. We believe that our work isn't just about designing better windows and doors—it's about opening new possibilities for the people who use them.

WINDOWS

Awning and Picture windows in Ebony

WINDOW TERMS + DEFINITIONS

1. FRAME

There are three components to the frame: the header across the top, the jambs down each side, and the sill across the bottom. Marvin frames are built strong with a variety of high-quality wood species.

2. GLAZING

The glass in a window is called glazing. Marvin's broad range of glazing options can meet both high-performance and refined aesthetic requirements.

3. LITE

Each area of glass is called a lite. Marvin offers divided lite patterns for whatever look you wish to create.

4. HARDWARE

Marvin uses only the highest quality locks, handles, lifts, pulls, and hinges in a wide variety of durable finishes.

5. SASH

The sash—operating or stationary—is comprised of horizontal rails, vertical stiles, and glazing. Marvin's large solid sash offer precise fit and ease of operation.

WINDOW OPERATING STYLES

DOUBLE HUNG

Double hung windows have two movable sashes which operate vertically.

CASEMENT

A window that is hinged to its frame at the side and opens like a door.

GLIDER

A window with a sash that slides horizontally to open and close.

AWNING

An awning is hinged to the frame at the top and opens outward. If hinged on the bottom, it's called a hopper.

FIXED OR PICTURE

An inoperable window with direct glaze or in-sash configurations. Available in a wide range of polygon and radius shapes.

MORE FLEXIBILITY TO MEET ANY DESIGN CHALLENGE.

Marvin has an extensive selection of styles, sizes, shapes, and options.

DOUBLE HUNG WINDOWS

Ultimate Double Hung windows combine state-of-the-art design with classic style. Advanced engineering and high-quality construction make our double hung windows incredibly durable, versatile, and easy to use.

Double Hung G2 windows in White with Oil Rubbed Bronze hardware

ULTIMATE DOUBLE HUNG G2

The Ultimate Double Hung G2 window is an embodiment of our dedication to the craft of creating windows and doors. Influenced by the rich, historical significance of this window style and inspired by innovative design, each feature is thoughtfully added and every detail is carefully considered. This is all in service of shaping a window that deserves to be in the unique homes our customers desire.

INTERIOR

EXTERIOR

UNIQUE WASH MODE ALLOWS CLEANING OF BOTH SIDES OF GLASS FROM INDOORS

ULTIMATE DOUBLE HUNG G2

Engineered for performance and designed to inspire, each aspect of the Ultimate Double Hung G2 window was made with purpose. Our engineers consider every detail from the most innovative features to the most minute subtleties, all because the windows in your home help illuminate the most important parts of your life.

INTERIOR FEATURES AND PERFORMANCE

RICH WOOD INTERIOR
Offers beauty and warmth with six wood species and ten interior finish options.

NARROW CHECKRAIL
Provides a sleek aesthetic at 1 15/16 inches to maximize daylight opening while maintaining historical accuracy.

TILT WASH MODE
Allows easy access to exterior glass for cleaning and maintenance.

EXCLUSIVE AUTOLOCK
Activates when the sashes are closed, locking the window.

FIRST-RATE ENERGY EFFICIENCY
Meets ENERGY STAR® standards in energy efficiency with multiple glass options for various regions, climates, and weather needs.

SASH BALANCE SYSTEMS
Enables smooth operation at the largest sizes.

EXTERIOR FEATURES AND PERFORMANCE

DURABLE CLADDING
Extruded aluminum exterior cladding with an AAMA verified 2605 finish and backed by a 20-year warranty against chalking and fading.

EXPANSIVE SIZES
Larger than 5 feet wide by 10 feet high.

TRADITIONAL SILL BEVEL
The 14-degree bevel provides optimal water management while maintaining a classic look.

SUPERIOR WEATHER PERFORMANCE
LC-PG50 on most sizes. Optional commercial (CW) performance and IZ3 certified coastal performance on most sizes.

DESIGN VERSATILITY
An array of simulated divided lite patterns, interior and exterior color options, ten hardware finishes, and archtop models.

ALUMINUM INTER-LOCK
Eliminates drafts and improves the window's overall structural integrity.

ULTIMATE DOUBLE HUNG ROUND TOP G2

Double Hung Round Top G2 windows in White with Satin Nickel hardware

ULTIMATE DOUBLE HUNG ROUND TOP G2

The Ultimate Double Hung Round Top G2 window will add traditional arching and elegant lines to your home or historic preservation project. With the same features and grace of the Ultimate Double Hung G2 window, this window offers design flexibility with numerous variations of radius shapes. Choose from multiple divided lite patterns to further enhance the arch of the window. These versatile windows—available in a wide range of sizes—can provide a subtle accent or a dramatic focal point to enhance your home design.

ROUND TOP VARIATIONS

EYEBROW AND HALF EYEBROW RADIUS OPERATING DOUBLE HUNG

A classic look with a gentle eyebrow radius. Beautiful as a stand alone window or as part of an assembly.

HALF CIRCLE TRANSOM

This simulated half circle transom window can be sized to stand alone or easily fit above a double hung window.

EYEBROW TRANSOM AND PICTURE

This stationary window is available as a transom or picture window. These windows are designed to complement the Ultimate Double Hung G2 window with correlating sizes and matching springline.

HALF CIRCLE RADIUS OPERATING DOUBLE HUNG

A dramatic window with a true half circle arch. The look gives a beautifully smooth transition from jamb to header. Both sashes are operable.

ASYMMETRIC CURVE OPERATING SINGLE HUNG

This striking window style adds elegant curve to a two-wide window assembly (not shown).

ULTIMATE DOUBLE HUNG INSERT G2

Double Hung Insert G2 windows in White with Satin Nickel hardware

Double Hung Insert G2 windows with Matte Black hardware

ULTIMATE DOUBLE HUNG INSERT G2

The Ultimate Double Hung Insert G2 window adds quality craftsmanship, beauty, and energy efficiency to your home without compromising architectural integrity. Its frame-in-frame design is built precisely to seamlessly fit into your unique window opening, so there's no need to remove the existing frame or disturb the exterior or interior trim of your house.

INTERIOR

EXTERIOR

SASH LOCK IN SATIN NICKEL

ULTIMATE SINGLE HUNG G2

Single Hung G2 window with traditional Lift Lock in Satin Chrome

Single Hung G2 windows with Contemporary Lift Lock in Brass

ULTIMATE SINGLE HUNG G2

A contemporary classic, the Ultimate Single Hung G2 window blends traditional beauty and state-of-the-art performance. With the top sash stationary and the bottom sash operable, a single hung style is often preferred in a cottage-style window with a small top sash that doesn't need to open. Reliable and energy efficient, the Ultimate Single Hung G2 window offers an auto-lock feature for convenient security, durable hardware for smooth operation, and Marvin's unique Wash Mode for easy cleaning. Customize your design with round top styles or optional Lift Lock, Marvin's exclusive bottom rail locking mechanism for easier operation in hard-to-reach areas.

CASEMENT + AWNING WINDOWS

Ultimate Casements and Awnings are innovative, high-performing windows. Delivering exceptional versatility and clean profiles, these state-of-the-art windows are designed to suit virtually any application.

Casement and Awning windows with Satin Nickel hardware

ULTIMATE CASEMENT STYLES

Casement and Picture windows with Satin Nickel hardware

FULL FRAME OR NARROW FRAME

The Ultimate Casement and Ultimate Casement Narrow Frame windows are the most versatile and innovative casement windows ever produced. Ultimate Casement styles feature concealed multi-point locks, a patented Wash Mode, and durable hardware that operates smoothly even at the largest sizes.

ULTIMATE CASEMENT

A recessed sash for a traditional look, plus a full jamb, offers design flexibility for new construction or full frame replacement.

ULTIMATE CASEMENT NARROW FRAME

A flush sash to the exterior and narrow jamb depth make this window an easy choice for frame-in-frame replacement or more contemporary new construction applications.

ULTIMATE CASEMENT EXTERIOR WITH 4 3/8" FULL JAMB

JAMBS + PROFILES

The Ultimate Casement has a recessed sash for a traditional or historic look. The Ultimate Casement Narrow Frame has a flush-to-frame sash for a contemporary look.

ULTIMATE CASEMENT NARROW FRAME EXTERIOR WITH 2 3/8" NARROW JAMB

ULTIMATE CASEMENT EASY WASH MODE

Ultimate Casement operates in a way so revolutionary that we've patented it, making Marvin the only place you'll find it. The hardware allows access to both sides of the glass from the inside of your home, making window washing stress- and ladder-free.

REVOLUTIONARY WASH MODE

1. Crank the handle twice.
2. Push down on the hardware arm, and push the window away. Then crank the arm back.
3. Swing the window all the way open, pulling it across toward the lock for accessibility to exterior glass.

Marvin exclusive Wash Mode not available on Ultimate Casement windows in sizes less than 20 inches wide or Ultimate French Casement, Ultimate Awning, or Round Top windows.

ULTIMATE CASEMENT FEATURES + OPTIONS

MULTI-POINT LOCKING SYSTEM
Multi-point locking mechanisms enhance performance and make large casements easy to operate.

ENDLESS DESIGN OPTIONS
A variety of divided lite patterns, including a double hung look make energy-efficient casements the perfect replacement window in older homes.

LOCK STATUS SENSOR
Hidden Lock Status Sensor option connects with your smart home to indicate when windows are closed and locked.

LARGE SIZES OPEN WITH EASE
We have developed the most durable hardware in the industry, which provides easy opening and smooth operation on even the largest casements.

WINDOW OPENING CONTROL DEVICE
Limits the casement sash opening to less than 4 inches when engaged. The release mechanism allows for operation beyond 4 inches. This option meets the ASTM F2090-21 standard.

FRICTION LIMITER
Flip a lever to lock the sash securely in place at multiple set angles, allowing you to open your window on windy days. Available for push out only.

ULTIMATE CASEMENT

Casement window in Designer Black painted interior finish with Matte Black hardware

Photographer: Sara Tramp

Casement windows with Matte Black hardware

ULTIMATE CASEMENT

The Ultimate Casement window is offered in some of the largest sizes in the industry, with a secure multi-point lock, durable hardware that ensures smooth operation, and Marvin's exclusive Wash Mode for easy cleaning—even on upper floors. With many design options, including round top shapes, the Ultimate Casement window flexes to fit your vision and can be sized to complement the most expansive views.

CASEMENT INTERIOR WITH FOLDING HANDLE

CASEMENT EXTERIOR WITH FOLDING HANDLE

ULTIMATE CASEMENT ROUND TOP

HALF CIRCLE RADIUS CASEMENT

HALF CIRCLE RADIUS FRENCH CASEMENT PUSH OUT

EYEBROW RADIUS CASEMENT

HALF CIRCLE RADIUS CASEMENT

ULTIMATE CASEMENT INSWING

The Ultimate Casement Inswing window complements classic architectural styles. Inswing casements are particularly desirable where an outswing window would interfere with a patio, deck, or outdoor walkway. The Ultimate Casement Inswing can open from 90 to 180-degrees, so it is completely out of the way when open. Also available in a French Casement Inswing for a wide view with no center post to spoil the scenery.

ULTIMATE CASEMENT ROUND TOP

The Ultimate Casement Round Top window is a great choice for designs that require large unobstructed views and the elegance of an arched shape. You can select from numerous round top shapes for design flexibility. The window can be used alone as a focal point or in combination with other windows.

INTERIOR CLOSED

EXTERIOR

INSWING HARDWARE IN OIL RUBBED BRONZE

ROUND TOP VARIATIONS

HALF CIRCLE RADIUS OPERATING CASEMENT

A dramatic window with a true half circle arch. The look gives a beautifully smooth transition from jamb to header.

HALF CIRCLE RADIUS OPERATING FRENCH CASEMENT

This striking window style adds an elegant curve to a double sash window with no center post for a wide-open view.

EYEBROW RADIUS OPERATING CASEMENT

A classic look with a gentle eyebrow radius. Beautiful as a stand alone window or as part of an assembly.

TRANSOM

Stationary windows with either eyebrow or half circle arches can be sized to stand alone or easily fit above a casement.

ULTIMATE AWNING

Awning window in stained Multi-Grain Douglas Fir with Matte Black hardware

Awning and Picture windows with Matte Black hardware and Designer Black sash/White frame

ULTIMATE AWNING

A top-hinged alternative or complement to a casement window, the Ultimate Awning window is designed for performance and quality. With industry-leading sizes, the Ultimate Awning can be used on its own as a convenient option for hard to reach areas like over a sink or counter, or as a complement to adjacent windows, allowing fresh air access.

AWNING WITH FOLDING HANDLE IN SATIN NICKEL

AWNING PUSH OUT WITH PUSH OUT HANDLE IN OIL RUBBED BRONZE

ULTIMATE AWNING NARROW FRAME

Awning Narrow Frame windows with White hardware

Awning Narrow Frame windows with Satin Nickel hardware

ULTIMATE AWNING NARROW FRAME

The Ultimate Awning Narrow Frame window is a sleek and versatile top-hinged window with a flush exterior profile and narrow frame—meaning it can be installed in replacement projects without removing the existing window frame or disrupting interior or exterior trim. The Ultimate Awning Narrow Frame window's contemporary aesthetic looks beautiful on its own or as a complement to narrow frame casement or picture windows. Hardware located at the bottom of the window means easy operation—even in hard to reach areas like over a kitchen sink.

AWNING NARROW FRAME WITH FOLDING HANDLE IN SATIN NICKEL

ULTIMATE BAY + BOW

Picture Bow window

ULTIMATE BAY

Ultimate Bay windows are a group of connected windows extending outward from a room at desired angles—allowing light and views from multiple directions. Some feature a larger operating or stationary window flanked by smaller windows. Ultimate Bay windows can create space indoors for a cozy nook or window seat or maximize a scenic view to serve as a room’s focal point. They can be created with combinations of 3 to 6 casement or double hung windows (fixed or operating).

BAY INTERIOR WITH CASEMENT AND PICTURE WINDOWS

ULTIMATE BOW

Ultimate Bow windows are a series of windows connected to form a gentle outward curve. Typically made up of four or more windows, Ultimate Bow windows can create a small nook, open up a view, bring in more light, and boost visual appeal from inside and out. Bow windows are available with casement, double hung, or picture windows. They can be created with combinations of 3 to 6 casement or double hung windows (fixed or operating).

DOORS

Multi-Slide doors in Bronze

DOOR TERMS + DEFINITIONS

1. FRAME

The door frame includes the head jamb across the top, side jambs, and the sill at the bottom. Marvin frames are built strong to stand up to heavy door usage year after year.

2. STILES + RAILS

The horizontal wood members of a door are called rails; the vertical components are called stiles. With a traditional French door design, the bottom rail is about 8 inches high, with 4 ¾ inch stiles and top rail. Doors with a more contemporary style often feature more glass, with stiles and rails as sleek as 3 inches.

3. SILL

Our door sills are made of Ultrex®, our proprietary pultruded fiberglass that is exceptionally strong and virtually impervious to time, weather, and pressure. Ultrex door sills provide excellent performance in hot or cold climates, plus durability over the long haul by being resistant to warping, denting, and fading.

4. PANELS

In a door, the panel is the main section, operating or stationary, that is installed into the frame. Marvin doors come in many sizes, some of the industry's largest, and all share the tight tolerances for fit and quality finishes.

DOOR OPERATING STYLES

OUTSWING DOOR

Single or double swinging doors open to the exterior.

INSWING DOOR

Single or double swinging doors open to the interior.

SLIDING DOOR

Save space with a door panel that operates by sliding along a track.

BI-FOLD DOOR

This door folds open and closed like an accordion and can include up to 16 panels.

LIFT AND SLIDE DOOR

For openings as large as 48 feet wide and 12 feet high, substantial door panels fully open into pocket or stacked configurations.

MULTI-SLIDE DOOR

Another option to blend interior and outdoor living with a modular frame system.

MAKE EVERY ENTRANCE GRAND

Marvin doors are designed to maximize the potential of any opening, view, and living space.

DOOR FEATURES + OPTIONS

**BEAUTY WITH PERFORMANCE**

Designed for durability and to minimize air and water infiltration. Many of our door products are certified to a light commercial rating of PG40.

**SOLID WOOD PANELS + FRAMES**

The sound of a Marvin door closing is a quiet statement of quality. Wood in the panels and frames make for an elegant, crafted look and feel, and provide a weather-tight closure for outstanding energy efficiency.*

**MULTI-POINT LOCKING SYSTEM**

Concealed stainless steel head and foot bolts within the door secure it solidly at three points. Choose either a keyed or non-keyed lever handle. Multi-point lock comes standard.

**ADJUSTABLE HINGE**

Standard on swinging doors, an adjustable hinge makes it easy to fine-tune the fit of a swinging door over the door's lifetime. Available in a variety of finishes, plus coastal options.

**LOW PROFILE SILL**

This innovative sill option on select door types provides for a smooth transition between exterior and interior living spaces.

**RAISED AND FLAT PANELS**

Raised and flat panels add depth and style to sliding and swinging French doors, including arch top swinging doors. This option changes the overall aesthetic of your door when less than a full lite of glass is desired.

Sliding French Door in Ebony

* Standard in 1 3/4" and available in 2 1/4" panel thickness.

Lift and Slide door in Honduran Mahogany

ULTIMATE LIFT AND SLIDE DOOR

With openings up to 48 feet wide and 12 feet high, now you can add acres to your floor plan. Available with pocketing panels that slide into the wall, completely disappearing from view, or stacked panels that slide and stack perfectly within the door frame for a seamless transition from inside to out. Both are available with exclusive flush-mount handles and exterior finger pulls that virtually disappear when not in use.

INTERIOR

HARDWARE OPTIONS

Available with exclusive flush-mount hardware, interior finger pull, and optional exterior finger pull.

POCKET AND STACKED CONFIGURATION

When open, panels either slide into the wall cavity or stack neatly into the wall cavity. They glide on the inconspicuous 3/16 inch high exposed track.

ULTIMATE COMMERCIAL DOOR

WOOD SPECIES

Offering a rich, warm look, many custom options, and design versatility, wood is a premium choice. Wood can be used on both the interior and exterior of our Ultimate windows and doors. As a lower maintenance option, wood can also be used on only the interior with an extruded aluminum cladding exterior. Marvin offers both options, leading the industry in sourcing, processing, and utilizing high-quality wood.

STAIN + PAINT

When compared to painting or staining on the job site, factory-stained finishes offer consistent quality and performance resulting from our expertise with wood as a material and years of perfecting our finishing processes.

Painting on the job site or scheduling off-site finishing is an extra step that takes time and coordination. Choose our painted interior finish option on any Marvin windows and doors with a wood or clad exterior for a factory-painted option that arrives ready to install.

CUSTOM COLOR: ANY COLOR YOU WANT

EXTRUDED ALUMINUM

Extruded aluminum is an extremely tough cladding that protects wood windows, mimics the profiles of wood, and provides superior durability. It is the most commonly ordered exterior material for our Ultimate products.

Select a color from our palette of 19 durable extruded aluminum colors, including a spectrum of rich hues and three pearlescent finishes. If you have more specialized needs, we can also work with you to create a custom color.

WOOD

Wood is a premium material for windows and doors, offering classic aesthetic appeal, many options for customization, and design versatility.

We treat exposed millwork with a water repellent wood preservative to help it last longer. Choose from one of the four options below. Each is ready to be finished to match your project's exacting requirements.

EXTERIOR CASINGS + SUBSILLS

Brick Mould Casing and special subsill with custom mull cover in Hampton Sage

EXTERIOR CASINGS + SUBSILLS

Adding Marvin extruded aluminum or wood casings and subsills to your windows and doors provides great architectural detail to any home. Ultra-durable extruded aluminum casings feature a beautiful factory-applied finish that resists chalking, fading, pitting, corrosion, and marring. Casing profiles are consistent around the sides and top of a window or door, except for the Potter casing profile, which has a taller head. Custom casings and subsills are also available.

DIVIDED LITES

Inswing French Door G2 and Round Top window with custom Simulated Divided Lites

DIVIDED LITES

Simulated divided lites, available in a number of different styles, mimic the look of individual panes of glass with the energy efficiency of dual pane insulated glass.

Our custom capabilities allow us to create almost any divided lite pattern to match your design style.

SIMULATED DIVIDED LITE (SDL)

SDL bars are permanently adhered to both sides of the glass. Simulated Divided Lites with Spacer Bars (SDLs) are an energy-efficient way to create the look of authentic divided lites.

AUTHENTIC DIVIDED LITE (ADL)

Separate panes of glass are glazed between muntin bars for historical accuracy. Available exclusively with wood exterior units.

GRILLES-BETWEEN-THE-GLASS (GBG)

Grilles are permanently installed between the glass panes. This low-maintenance grille offers the look of a divided lite pattern with the ease of cleaning just one pane of glass. Available with different interior and exterior colors.

FIVE STANDARD BAR WIDTHS

SQUARE STICKING

MARVIN SIGNATURE® COLLECTION

STICKING AND PROFILES

Sticking refers to the interior profiles of your wood window. Choose from the standard Ogee profile (used on traditional projects) or the optional clean, contemporary Square sticking.

SQUARE STICKING

GLASS + GLAZING

Awning and Picture windows and Inswing French door in Pebble Gray

DUAL PANE GLAZING

Our standard glazing is dual pane: two panes of glass with Low E coatings and insulated with argon gas. Compared to a single glass pane, dual pane glass cuts energy costs significantly because of low emissivity coating and the gas-filled insulating space between the glass layers.

TRIPLE PANE GLAZING

Triple pane glazing consists of three panes of glass with Low E coatings applied to the surface. Two glass spaces are insulated with argon gas between the panes. Available in products where glazing thickness can be greater than 3/4 inch.

GLASS + GLAZING

The thermal and structural properties of wood combined with the right glazing make Marvin wood and extruded aluminum clad products an optimal choice for energy efficiency. We offer thousands of window and door options with two or three panes of glass and a range of glazing options to meet the performance challenges of any climate.

GLASS COATINGS

Low E coatings are microscopically thin, essentially invisible coatings on the glass surface that help manage the amount of light and heat conducted through a window pane or reflected away from it, reducing a home's dependence on heat and air conditioning. The national ENERGY STAR® program recognizes products that meet strict energy-efficiency guidelines to suit climates in different areas of the country, and Marvin offers products to meet climate and code requirements in every region.

LOW E1

Low E1 coating is a good choice when you want maximum solar heat gain and radiant heating properties. This type of coating is generally used in Northern climates where heating is prioritized over cooling. You'll reap maximum benefits when windows with this type of coating are positioned to receive direct sun exposure.

LOW E2

The most common Low E coating since it works well across most geographic regions and climates. Low E2 with two metallic coatings balances less solar heat gain and improved radiant heating properties.

LOW E3

Used in applications where solar heat gain may be a concern, low E3 coating uses multiple metallic layers for radiant properties similar to Low E2. This type of coating is most commonly used in Southern, sunny climates where cooling is prioritized over heating.

SPECIALTY GLASS

Our specialty options include glass for unique project needs like sound abatement (STC/OITC), high altitudes, Sea Turtle Conservation Codes, and California fire zones. We also offer laminated glass on certain products that are designed specifically for hurricane zones.

A variety of decorative glass options, including those shown below and others, are available to meet the unique needs of each project. Laminated glass is also available in clear, bronze, gray, or green with tinted interlayers.

HOME AUTOMATION

Casement windows and Sliding French door with concealed Lock Status Sensors

SLIDING DOOR AUTOMATIC CONTROL

Even though a large Ultimate Multi-Slide door slides open or closed with surprising ease, Marvin offers an option for automated operation. The quiet, motorized system works with touchpad controls and can easily be adapted to interface with home automation systems and smart phone technologies.

LOCK STATUS SENSOR

Our Lock Status Sensor brings smart home capabilities to Marvin windows and doors. This affordable solution is installed in the factory and fully concealed—meaning no unsightly sensors attached on the exterior or interior and no additional modification of your product once installed. The sensor can be wired or wirelessly connected, working in tandem with your smart home security system to indicate if windows and doors are closed and locked and providing peace of mind when security is a concern.

SCREENS

Double Hung Insert G2 windows in Stone White with Full Screens

SCREENS

Choose from an aluminum surround in three finishes or a wood interior surround that complements warm wood interiors. Marvin screens now come standard with Marvin Bright View™ - a fiberglass screen mesh that provides improved airflow and more natural light while keeping insects out. Bright View repels water and resists dirt and grime for a sharp, vivid view.

CASEMENT SCREEN OPTIONS

WOOD SCREEN SURROUND
The patented wood screen surround with wood interior and aluminum exterior features Marvin Bright View™ screen mesh. Aluminum screen mesh options also available.

INSWING CASEMENT SCREEN
The beautifully crafted inswing screen adds a classic touch and allows access to operate push-out casement and awning windows.

BRIGHT BRONZE WIRE

DOUBLE HUNG SCREEN OPTIONS

FULL OR HALF SCREEN

Exterior aluminum screen with an aluminum surround. The full screen covers both the top and bottom sash. The half screen only covers the bottom sash.

DOOR SCREEN OPTIONS

ULTIMATE SWINGING SCREEN DOOR

With profiles that complement the aesthetics of the door, swinging door screens feature robust, durable extruded aluminum surrounds and concealed hinges.

ULTIMATE SLIDING SCREEN DOOR

Aluminum top hung sliding screen with roller bar, adjustable rollers and unmatched sliding operation.

SCENIC DOOR SLIDING SCREEN

The Marvin Ultimate Sliding Screen operates with ease and conceals when not in use. The screen is unobtrusive even in large sizes measuring up to 15 feet wide and up to 10 feet high uni-directional or up to 29.5 feet wide bi-parting.

Marvin window and door screens come standard with Marvin Bright View™ - a fiberglass screen mesh that provides improved airflow and more natural light while keeping insects out. Bright View repels water and resists dirt and grime for a sharp, vivid view.

DOUBLE HUNG STORM OPTIONS

TWO-LITE WOOD STORM SASH OR SCREEN

A wood frame containing non-removable glass. The storm sash can be removed during the summer and replaced with a wood-framed screen. Available only for wood windows.

STORM AND SCREEN COMBINATIONS

A combination unit is composed of two glass panels and one screen panel that can be easily removed from the interior for cleaning. Available with a wood (bare or primed) or aluminum surround, panels can be configured multiple ways, glass above screen, screen above glass, or glass above glass.

ENERGY PANEL

Often confused with storm windows, an energy panel is technically a glazing option. It is a removable, exterior glass panel finished on the edges by a surround. Energy panels cover the exposed glass surface of each sash and offer added energy efficiency for wood windows with single glazing.

WINDOW OPENING CONTROL DEVICES

Marvin Window Opening Control Devices (WOCD) meet the ASTM F2090-21 standard, created to assist in the prevention of window falls. To meet the standard, our devices limit the window's net clear opening to less than 4 inches (when the sash is open) and have a release function allowing the window to open completely. In order to meet the safety standard, WOCD disengagement takes two independent actions, which helps prevent accidental release. Devices will then automatically reengage once the window is closed and again limit the window opening to less than 4 inches upon re-opening.

DOOR HARDWARE

Outswing Narrow Profile door with Minimalist handle in Matte Black

DOOR HARDWARE

Ultimate door hardware is engineered for durability, ergonomics, and to be a beautiful complement to your Marvin door. Satin Nickel, Brass, and Oil Rubbed Bronze finishes are available with a PVD finish. The Physical Vapor Deposition (PVD) process adds a layer of toughness to hardware exposed to environmental factors like direct sun and humidity. PVD finishes resist fading and discoloration, even in coastal areas.

COASTAL

Double Hung G2 and Round Top windows and Outswing French door in Stone White

COASTAL PRODUCTS

COASTAL PRODUCTS

Coastal living is beautiful and serene until the storms hit. When you live by the water, you need to know that your windows and doors will stand up to the challenge of coastal conditions. We offer windows and doors specifically designed for the extreme conditions and construction requirements of coastal zones.

Casement and Awning windows in Stone White with IZ3 certification

ULTIMATE CASEMENT AND ULTIMATE AWNING

Our innovative, high-performing casement window offers a variety of customization, expert craftsmanship and superior value. Also available in a round top style. IZ3 and IZ4 certified.

ULTIMATE DOUBLE HUNG G2 (EXTRUDED ALUMINUM CLAD ONLY)

The Ultimate Double Hung G2 window is a contemporary classic. The exclusive innovative locking system means the window locks automatically when closed. Also available in an operating round top style with clad exterior. IZ3 certified.

ULTIMATE WOOD DOUBLE HUNG

Advanced engineering and the high-quality construction of our Ultimate Wood Double Hung window make it incredibly durable, versatile, and easy to use. An all wood exterior and interior bring beautiful and classic style to your project. Also available in a round top style. IZ3 certified.

ULTIMATE WOOD DOUBLE HUNG MAGNUM

Designed for large residential openings, commercial applications, and historic renovations, the Ultimate Wood Double Hung Magnum window is available in sizes as large as 5 feet wide and 10 feet high. IZ3 certified.

ULTIMATE DIRECT GLAZE PICTURE WINDOW

Unique geometric shapes and beautifully arched round tops, Direct Glaze Picture windows add dimension and drama to your project. Choose from numerous shapes and curves to create your ideal window. Certified for IZ3 or IZ4 depending on the window specifications.

ULTIMATE SWINGING NARROW PROFILE DOOR

The Ultimate Swinging Narrow Profile Door features narrow sightlines, 3 inch stiles and rails, and contemporary square interior and exterior profiles. Select IZ3 certified sizes and configurations, along with accompanying transoms and sidelites, are available.

ULTIMATE SWINGING FRENCH DOOR

The Ultimate Swinging French door is a modern classic. Superior in fit and finish, these doors combine traditional design and expert craftsmanship in a variety of design combinations that complement any space. Certified for IZ3 or IZ4 depending on the specifications of your door.

ULTIMATE SLIDING FRENCH G2 DOOR

The elegant look of a traditional French G2 door with a space-saving sliding design. You can feel the superior quality in the substantial wood and nearly effortless operation of this door. IZ3 certified.

ULTIMATE BI-FOLD DOOR

The Ultimate Bi-Fold door is a simple, elegant solution for indoor/outdoor living. Bigger sizes with more glass and a clean design aesthetic combine to give homeowners more flexibility. Spanning 55 feet in width, the Ultimate Bi-Fold door is one of the widest panel doors in the industry. IZ3 certified.

ULTIMATE MULTI-SLIDE DOOR

The Ultimate Multi-Slide door is more than just a panoramic door. It's an entirely new lifestyle. Smoothly slide it open and invite into your home expansive views, fresh air, and an abundance of warm, natural light. IZ3 Certified.

MULL OPTIONS

Dramatic ocean views are often created by grouping IZ3 windows in an assembly, sometimes joining them both horizontally and vertically. The space between the windows where they are joined together is called a mull. Mulling options for Marvin IZ3 Ultimate Casement windows and Ultimate Double Hung windows with frame-to-frame mulling configurations are WDMA certified in most sizes.

Since we opened as a family-owned and -operated lumber and cedar company in 1912, Marvin has designed products to help people live better. We remain committed to bringing beauty and simplicity into people's lives with windows and doors that stand the test of time.

COASTLINE

MARVIN SIGNATURE® COLLECTION

Coastline Swinging French door, Casement, and Picture Narrow Frame windows

Marvin Signature® Collection

DESIGNED FOR THE BEST COASTAL VIEWS, ENGINEERED FOR THE WORST COASTAL WEATHER

Built for the most exacting architects, builders, and homeowners, Marvin Coastline windows combine a beautiful aesthetic, design flexibility, and a rigorous impact performance to help fulfill even the most ambitious visions for coastal homes. Coastline windows feature narrow sightlines and a clean aesthetic that will complement a wide range of architectural styles, and you can personalize your design with a custom color, a beautiful wood grain finish, or by creating a unique pattern of divided lites. Coastline windows are available in expansive sizes allowing you to leverage stunning coastal views. The reinforced impact glass and extruded all aluminum frames meet the most stringent hurricane impact code requirements.

Designed and manufactured in Florida, Coastline products are available in select southeast coastal regions.

About Us

At Marvin, we're driven to imagine and create better ways of living, helping people feel happier and healthier inside their homes. We believe that our work isn't just about designing better windows and doors—it's about opening new possibilities for the people who use them.

DESIGN OPTIONS

INTERIOR AND EXTERIOR FINISHES*

Coastline windows are available in ten low-maintenance interior and exterior finishes that resist fading, peeling, and chalking even under the most extreme coastal conditions. Our palette includes four woodgrain finishes that deliver a natural warmth and beauty. Custom color options are also available.

DIVIDED LITES***

Divided Lites replicate the look of individual panes while maintaining the advantages of a single pane of impact resistant glass, which is stronger and more energy efficient than multiple panes separated by muntin bars. Available in custom configurations to meet an extensive range of design possibilities.

Simulated Divided Lites are available on windows with non-insulated/single glazed glass in 1" Ogee/Flat or 1" and 2" Flat/Flat combinations. The Simulated Divided Lites are Flat to the interior.

Grilles-Between-the-Glass are available on windows with insulated glass.

* Interior/Exterior finish samples are approximate. Visit your local Marvin Coastline dealer to see finish samples or to learn more about creating a custom color.

**American Architectural Manufacturers Association (AAMA) 2605 certification.

*** Not all simulated divided lite profiles and configurations are compatible with all products. Check with your Marvin Coastline dealer for a recommendation on which profile is right for your project.

GLASS OPTIONS*

Coastline windows are built with impact resistant glass that is engineered to stand up to the punishing winds and flying debris generated by tropical storms and hurricanes. Coastline windows are available with several interlayer, laminated tinting options, and decorative glass that will increase privacy, reduce solar heat gain, and meet the requirements of Sea Turtle Conservation Codes.

DECORATIVE GLASS

SCREENS

Available on the Casement, Awning, Glider, and Single Hung windows, the Coastline screens feature aluminum frames specifically engineered to stand up to coastal weather. Capture cool ocean breezes and take advantage of fresh air while preventing insects, pests, and floating debris like leaves and seeds from entering your home.

* Double Tint and Neat decorative glass also available. Not all decorative and specialty glass is compatible with all products. Visit your local Marvin Coastline dealer for a recommendation on which glass is right for your project.

WINDOW HARDWARE

Coastline Casement window with Black folding handle and lock lever

WINDOW HARDWARE

Features locking and latching mechanisms that are engineered to protect your home against harsh coastal weather. Hardware finishes withstand corrosion caused by humid conditions and salty air, and resist fading even after many years of direct exposure to the intense UV rays generated by the sun. Window hardware available in Black, Silver, and White.

HARDWARE FINISHES

Coastline Casement window with Black hardware

Coastline Single Hung window with Black hardware

IN HARSH COASTAL CONDITIONS, YOUR WINDOWS AND DOORS MATTER

Marvin offers windows and doors specifically designed for the coast.

Coastline Picture windows and Multi-Slide door

Marvin products are designed to fit the diverse needs of architects, builders, and designers, and to improve a homeowner's sense of well-being by leveraging light, views, and air in those spaces where they spend the most time. For over a century, Marvin has imagined better ways of living through forward-thinking, people-first design.

MODERN
MARVIN SIGNATURE® COLLECTION

THE SPIRIT OF MODERN DESIGN LIVES ON.

BORN FROM AND INFORMED BY THE
NEEDS OF ARCHITECTS AND BUILDERS,
OUR MODERN LINE IS INTENTIONAL IN
BOTH PROCESS AND PRODUCT.

We've considered how every detail can serve you and your vision,
guided by the quality and innovation that only Marvin can deliver.

THIS IS DESIGN IN YOUR HANDS.

THIS IS OUR MODULAR SYSTEM.

Every product works together as part of a visual system to help you design and configure with ease and confidence. Consistent sightlines across all products—along with special innovations like our integrated mull channel—maintain the clean aesthetic so central to modern design.

Pictured below: Modern Direct Glaze and Casement windows (left) and the Modern Multi-Slide door (right)

COMPONENTS SAVE
ON INSTALLATION TIME

THIS IS POWER IN SIMPLICITY.

THIS IS OUR PROPRIETARY FRAME.

A new frame design reimagines how modern windows and doors can perform. From exterior to interior, our proprietary High-Density Fiberglass infuses the Modern window and door frame with superior strength and thermal performance. The frame also features an integrated mull channel that enables mull reinforcement while maintaining sightlines and preserving thermal efficiency.

REVOLUTIONARY HIGH-DENSITY
FIBERGLASS MATERIAL

THIS IS PERFORMANCE BEYOND EXPECTATIONS.

THIS IS HIGH-DENSITY FIBERGLASS.

We envisioned more performance potential for modern windows and doors. So we developed High-Density Fiberglass, a revolutionary material that echoes the look of its modern counterparts with better thermal efficiency.

THE VIEW
LIKE CONCEALED FASTENERS,
MINIMAL BLACK SPACER BARS,
AND BLACK SEALANT

THIS IS HOW IT ALL

COMES TOGETHER.

Combine product ingenuity with pure modern aesthetics and the result is truly stunning. Our Modern line is made to be built big and perform at scale, complemented by the power of critical design details. A low-gloss aluminum interior adds an elemental feel. Black spacer bars and black sealant engineered to maintain a clean daylight opening minimizes visual distractions. And internal covers completely disguise fasteners for clean, crisp edges.

Pictured left: Modern Multi-Slide door with a Clear Anodized interior finish

THIS WAS MADE FOR YOU.

WE PARTNERED WITH ARCHITECTS AND BUILDERS TO DEVELOP A PROCESS THAT ANSWERS THEIR NEEDS AT EVERY STEP ALONG THE WAY.

DELIVERY

We worked to create packaging and delivery systems that help you plan better and make the best use of your time and resources.

It begins with **PRODUCT WEIGHTS** listed on the quote and order confirmation—so you can plan proper equipment and resources in advance. We also provide prominent **WEIGHT LABELS** on every Modern product for easy on-site reference.

All products are packaged to protect components during shipping and handling. Ergonomic **LIFT POINTS** on each end of the unit help you leverage heavy products. Staple-free **CARDBOARD BOOTS** are fully wrapped around each corner. Dual skid plates provide rigidity and maneuverability, so you can slide products across different floor surfaces.

OTHER CONSIDERATIONS

- + Glass is covered with protective film
- + Each unit is stretch wrapped

INSTALLATION

On the job site, efficiency is key. So we created thoughtful products and accessories that ensure the installation runs smoothly.

A **JOB BOX** contains all the important parts and documentation you need, in one convenient place. Specially stocked according to your order, inside every job box you'll find:

- + Product hardware
- + Installation screws
- + Injection sealant
- + Installation instructions
- + Order information
- + Warranty registration
- + Touch-up and repair kits
- + And more

Never lose time tracking down an extra part or reference material.

OTHER CONSIDERATIONS

- + Pre-fabricated and pre-configured components reduce install time
- + Drywall recess in the frame accepts a drywall return for seamless integration

MADE TO BE BUILT BIG AND PERFORM AT SCALE.

MODERN WINDOWS

INTERIOR VIEW – PUSH OUT AWNING SHOWN IN EBONY WITH MATTE BLACK HARDWARE

INTERIOR VIEW – CRANK OUT AWNING SHOWN IN EBONY WITH MATTE BLACK HARDWARE

MODERN AWNING WINDOW

FEATURES

Crank Out and Push Out available

Sleek and modern form

Numerous sizes and configurations available, including right- or left-hand operating

Screens are intentionally designed to achieve a cohesive look with the window

Frame recess accepts a drywall return

Horizontal or vertical ribbon mulling capabilities

HARDWARE FOR ALL AWNING

Concealed multi-point lock system

One locking lever to engage or disengage multi-point locks

Stainless steel hinges

Proprietary Crank Out and Push Out designed hardware

HARDWARE FOR PUSH OUT

Discreet, nested handle at the sash and frame

HARDWARE FOR CRANK OUT

Exclusive rotating handle design

GLASS OPTIONS

Dual or triple-pane insulated glass

Interior cover depths vary based on glass thickness

Black spacer and dark silicone sealant

Low E1, E2, E3, ELR, or ERS glass options

Specialty glass: frosted, obscure, and gray or bronze tint

Argon or Krypton-Argon blend gas

CONFIGURATIONS AND MULLING

Jamb depth 4 1/2"

Awning to awning muller frames 5 9/16" wide

Seamless muller assemblies with aluminum reinforcement

THERMAL PERFORMANCE

Dual-pane IG low E2 with Argon 0.28 U-Factor
